Title: Systematic Review of Worldwide Variations of the Prevalence of Wheezing Symptoms in Children

Version: 2 **Date:** 26 August 2008

Reviewer: Patrick Goodman

Reviewer's report:

I have reviewed the revised manuscript and i am happy that the points rasised in my initial review have been addressed.

My only comment for now is that I would still like to see some form of overall conclusion at the end of the manuscript, there is one in the abstract but not in the manuscript itself. The abstract also to be quite long!
