

Reviewer's report

Title: Potential developmental neurotoxicity of pesticides used in Europe

Version: 2 **Date:** 8 October 2008

Reviewer: Claudio Colosio

Reviewer's report:

- Major Revisions

No need for major revision

- Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Page 7, line 1: perhaps, the phrase “..obtained this way” a“in”is missing.

- Discretionary Revisions (which are recommendations for improvement but which the author can choose to ignore)

I insist in thinking that table 2 is too long, but I fully accept the Author's trust in the capacity of the Journal to publish a readable table.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
