

Reviewer's report

Title: A review on the applicability of non-invasively collected matrices for human biomonitoring

Version: 2 **Date:** 4 November 2008

Reviewer: Antonio Mutti

Reviewer's report:

Several errors (typos?) need to be fixed. A marked copy of the paper is available upon request, where additional comments deserving attention have also been inserted.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
