Title: The Effect of Ambient Air Pollution on Respiratory Health of School Children: a Panel Study

Version: 2 **Date:** 21 November 2007

Reviewer: Lisbeth E. Knudsen

Reviewer's report:

General

The authors care addressed the comments and I have very few additions.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

For the completeness I suggest to include Nordic countries in Europe as countries with increased heating from wood combustion.

Refernce 25 is incomplete

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
