### **Author's response to reviews:**

I have made the formatting changes requested in the email received on Sept. 12, 2006. Specifically, I have added all the authors for each cited article (where I had only the first six previously), and I have inserted a colon after the authors' names and before the title of the cited article. Furthermore, I have created a page in the text for the Title and Legend to accompany Figure 1. I have uploaded a revised Figure 1, accordingly.
