On page 11 in the last paragraph, "excepting" should be replaced by "with the exception of."

Please see the Instructions for Authors (or a recently accepted article) for the headings and proper wording of what needs to be typed in the Competing Interests section and insert the sentence "All authors read and approved the final

In the references section, please remove the issue numbers and be sure all the entries are aligned so that none of them are further left justified than others e.g. #3 and 34. If you need further guidance, please see the Instructions for Authors (<http://www.ehjournal.net/info/instructions/>). It is important that your files are correctly formatted.
