**Version:** 6 **Date:** 25 April 2008

### **Author's response to reviews:**

We made all the corrections asked by the Environmental Health Editorial Team.

Regarding the references, there is a problem with the Reference Manager Style given by the journal, which keep a maximum of 10 authors. The reference style also put 'Reference list' as the title for the reference section instead of 'References'. We have corrected all these references and the title by hand, but it is possible that formatting during transfer erased these corrections.
