To the Editor of Environmental Health,

Please find enclosed the revised manuscript entitled 'Minute ventilation of cyclists, car and bus passengers: an experimental study', manuscript number 1673199625294752.

We thank the reviewer for reviewing the manuscript for a second time.

In answer to your requests we have made the following changes:

We changed the title into 'Minute ventilation of cyclists, car and bus passengers: an experimental study'.

We changed the title-page as you requested.

We wrote the numbers 0-9 in full instead of using numbers.

We changed the word 'data set'.

We changed the spaces in 'and/or'.

We spelled out the acronym TRAVEL the first time it is mentioned in the manuscript.

The lay-out of the reference-numbers and reference-list has been changed into the style of Biomed Central.

We included an Abbreviations section.

The lay-out of table 6 has been changed according to the format of Environmental Health.

We hope to have addressed all your comments. For any further questions please contact me at Public Health Services Gelderland Midden or by email (M.zuurbier@uu.nl).

Sincerely,

Moniek Zuurbier, MSc
