

Reviewer's report

Title: A review on the applicability of non-invasively collected matrices for human biomonitoring

Version: 2 Date: 31 October 2008

Reviewer: Sue Fenton

Reviewer's report:

The authors have done an excellent job of filling in some of the gaps left in the first version of this manuscript. The manuscript was easy to read and was more complete/informative. The attention to the detailed comments of the reviewers was obvious and appreciated.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
